PASLODE® CORDLESS UTILITY FRAMING NAILER

- Fast Set Up – The convenience of no hoses, no compressors.
- Lightweight and Well-Balanced – Very maneuverable. Work all day with less arm fatigue.
- Easy to Operate – Depress tool only to drive a nail. Fits between joists and studs.
- Reliable, State-of-Art Electronics – Consistent long-life ignition. No break-in period. No “flooding.” Consistent nail drive and speed.
- Powerful Motor – Drives 2” to 3” fasteners for every framing application. Versatile: can do a wide variety of jobs with one tool.
- Mobile – Allows you to move throughout the job site without any restrictions.
- Tackles Tight Spots – Lets you work comfortably in cramped overhead and other hard-to-reach places.
- Heavy-Duty Housing – These tools are tough! The reinforced durable housing comes with a 5-year warranty.
- Lockout Feature – Locks out tool at four nails to prevent blank firing.
- Sequential Operation – Prevents “bump-firing” tool.
