

FASTENERS

TREX HIDEAWAY CLIP

Seamless installation with Transcend pre-grooved decking.

BOWRENCH DECK TOOL

The best tool for straightening (or bending) boards and joining tongue and groove materials!

CAMO HIDDEN DECK FASTENING SYSTEM

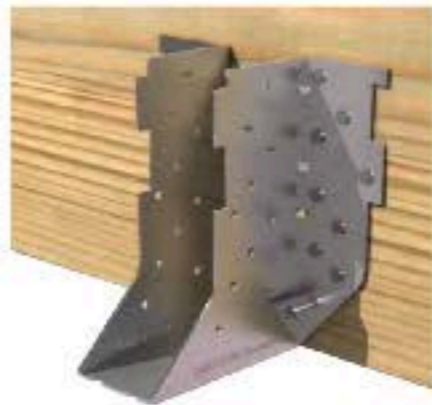

The Marksman Gun and companion screws offer a complete installation system that provides uniform spacing and blind fastening. It is best used on stable woods and composites.

SIMPSON HANGERS

We carry a full line of Simpson Hangers.

Please note that either ZMAX plated, Hot Dipped Galvanized or Stainless Steel should be used for wood in contact with pressure treated framing.

IPÉ CLIP EXTREME

- Stainless steel reinforced, square style
- (175) Ipé CLIP® Extreme Fasteners
- (190) #8x2 Stainless steel screws
- (12) Ipé plugs
- (1) Drill bit & screw gun driver bit
- (1) Instruction sheet
- Brown or Black
- Available in different spacing 5/32" for AD/KD, & 1/4" for KD

DEC•KLIP™

- No face nails to lift or stain
- Longer deck life - less rot
- Easier maintenance
- Fast & easy installation

SCREWS

The traditional method of face fastening with screws offers the best holding power while allowing for expansion and, if need be, easy replacement or turning of damaged boards. We have a complete line of plated and stainless in various head sizes and lengths.

DECKMASTER BRACKETS

- No screws or nails to pop up as the wood shrinks
- 22 1/2" Stainless or HDG Galvanized

2 screws hold each deck board

PROTECTO SEAL 45

- Eliminates wood to wood contact
- Forms seal around fasteners and prevents water from entering through the top of the joist
- Simple peel and stick installation
