

## Paneling / Flooring

### J100 1x6 Southern Yellow Pine Knotty TG SE

This warm knotty wood offers the look of a traditional pine floor but with the same hardness as Douglas Fir. The lumber is very well manufactured to a square edge profile and is ideal for floors, ceilings or paneling. Using Vermont Natural / Böhme finishes you can create a wide range of finishes from bleached to rich antique tones.

#### "Natural"

Böhme Sun Warden Finish  
"Clear"

#### "Bleached"

Böhme Jet Finish  
"White"

#### "Antiqued"

Böhme Hydro Oil Ipe  
"Jet Finish Clear"

## Paneling / Flooring

**Thermory** uses only heat (400°F) and steam in a controlled environment to modify European Pine by removing the natural sugars of the wood to impart rot resistance and added stability. The wood is end matched so installation is quick and simple. The wood will naturally fade to a platinum gray or you can maintain the rich brown color with a periodic coat of UV protectant oil. Thermory pine is now priced competitively with knotty Cedar and it can be used for siding, fencing, soffits or paneling.
